DATA SHEET

BANDA NT 30

Polyester seaming tape to glue synthetic grass strips

CHARACTERISTICS

Banda NT 30 is a Polyester seaming tape to glue synthetic grass strips. The special polyethylene coating on one side makes the gluing system more stable and resistant.

CHARACTERISTICS OF THE DRY PRODUCT

Characteristics	U.M.	Valor
Weight	g./sq.m.	155
Thickness	mm	0.44
Tensile strength MD (UNI EN 13859-1A)	N/5 cm	250
Elongation at break MD (UNI EN 13859-1A)	%	15
Tensile strength CD (UNI EN 13859-1A)	N/5 cm	200
Elongation at break CD (UNI EN 13859-1A)	%	19

PACKAGING

Length	200 linear meters
Height	30 cm

*The data provided by these data sheets are approximate and the Company reserves the right to modify the same for technical reasons, without prior notice. The solutions proposed do not represent all the possible uses but are merely case studies deriving from Casali's installation experience and are therefore intended only for purposes of illustration. The user is exclusively responsible for the way the products illustrated are used, whether properly or improperly, for evaluating in advance the suitability or otherwise of the product for its requirements and exerting the utmost caution in handling chemical products. **Important: to ensure best colour uniformity of surface laid products, we recommend that you use materials from the same production lot as finishing layer. The Technical Office of Casali's Synthetics Division is at your complete disposal for any further specific information or explanations you may require (phone 071 9162095).***
